AMENDMENT

Responsive to the examiner's action mailed August 19,  
1998, please amend the application as follows:

In the claims:

23. (Amended) An electrode package in which one or more  
adhesively-applied skin electrodes may be sealed, the electrode  
package comprising:

an adhesively-applied skin electrode,  
a compartment for maintaining the electrode in isolation  
from an external environment, and  
a connector electrically connected to the electrode and  
comprising a connector body including a first end exposed to an  
interior of the compartment and in isolation from the external  
environment, and a second end isolated from the interior of the  
compartment when the compartment maintains the electrode in  
isolation from the external environment, the connector body  
providing an electrically conductive path to the electrode from  
outside the compartment when the compartment maintains the  
electrode in isolation from the external environment,
